Student skilled in Python, SQL, JavaScript, and React seeking to leverage technical expertise and problem-solving skills in a technology-driven role. Experienced in data systems, usability research, and project management, with a focus on delivering user-centered, technology-driven solutions.

EDUCATION

New Jersey Institute of Technology
Web & Information Systems
GPA: 3.6 | Dean's List 8 semesters

Expected Graduation May 2026
Newark, NJ

TECHNICAL SKILLS

Programming Languages: Java, Python, JavaScript, SQL | **Tools:** React, Shopify, Drupal, GitHub, Figma, Microsoft Office, Salesforce CRM | **Concepts:** User Centered Design, Competitive Landscape, Rapid Prototyping, Project Management, Copilot Prompting, Troubleshooting | **Soft Skills:** Critical Thinking, Communication, Customer Service Leadership, Social Media

EXPERIENCE

Human Capital Management Systems Intern

Jun 2025 - Aug 2025

New Jersey Transit

Newark, NJ

- Performed detailed examination of large datasets for accuracy & consistency during transition of systems, driving accurate data validation through Excel, Python, & SQL
- Developed a Python-based web application integrating SQL comparison techniques and scripting, serving to optimize pre-validation processes & elevating workflow efficiency
- Worked alongside team of 12 on the creation, editing, & troubleshooting of SQL queries, ensuring reliable data extraction & reporting, enhancing SQL skills

Freelance Web Developer

Aug 2025 - Present

AG Media

- Utilized JavaScript with React to construct responsive websites, allowing for enhanced accessibility with seamless cross-device performance, driving significant user engagement & boosting user satisfaction ratings
- Prioritized client communication, end-user needs, and transformed business ideas into technical solutions
- Performed the full software development lifecycle, encompassing design, coding, testing, deployment, and ongoing maintenance, leveraging multiple programming languages while implementing Agile development

Student Ambassador

Oct 2024 - Present

NJIT Office of Admissions

Newark, NJ

- Contributed to the coordination and execution of admissions events, overseeing tours and creating a hospitable atmosphere with themed decorations and interactive activities
- Managed and facilitated prospective student outreach by preparing and mailing 6,000 admission letters each semester and processing transcripts through our database on Slate
- Enhanced visitor experiences by boosting visitor engagement and satisfaction by 15% through efficient management of front desk operations and general office tasks

PROJECTS

Portfolio Website

Jan 2025 - May 2025

Crafted a portfolio website to share career accomplishments. Leveraged GitHub Copilot for all code generation, ensuring full automation of programming. Allowing for rapid prototyping and consistent code quality throughout project.

Highlander Hustle Prototype

Sep 2024 - Dec 2024

Identified need for improved information systems in NJIT's athletics department. Collaborated with team of 4 to research, design, and prototype a comprehensive system that better serves students.

CO-CURRICULAR EXPERIENCE

Public Relations & Social Media

Jan 2025 - Present

NJIT First Fellows Club

Newark, NJ

- Executed PR campaigns driving awareness of First Fellows' mission & events, elevating event attendance by 25% through strategic social media engagement & club partnerships
- Revamped compelling content & press releases for club activities, successfully securing features in NJIT's student news outlets & social medias
- Designed branded marketing materials (flyers, graphics, digital ads) using Canva to drive event attendance and membership engagement.
